Robert Newton	Winburne.....	33,840
Miss Ethel Goss	Osceola Mills.....	26,325

Another day of the final week of The Progress popular automobile contest has gone and with the passing of each day we are being rapidly drawn near the close of the great enterprise at 10 o'clock Saturday evening. Think of it, only three more days of Clearfield's most popular and far reaching campaign that only a short time ago was measured by weeks instead of days and hours. Every week and every period has passed save the last and most important one of all and it is now but a step from the present to the final counting of the votes by the judges, on Saturday, that will determine the winners of the automobile, piano and other high class contest awards.

Who will they be? Who will be the nine winners in this great event that has grown from day to day and has now resolved into such a determined but friendly battle for supremacy? There are a number of very active and ambitious contestants in each of the two districts, who are at present standing on practically even footing for the leading prize and it now remains to be seen which of the candidates in the districts will be able to make the greatest gains, spring the biggest surprise during the three busy days that remain of the voting. All of the contestants who are really competing are now running so close that any of them may yet attain the distinction of polling the highest vote and winning the top prize—the big, fine new touring car. Time alone will tell the interesting story—a very short time now, but this time is filled with hopes, votes and possibilities for those who aspire to make the most of the extraordinary chance that is theirs.

After all it is not merely the matter of winning a prize that is facing each contestant but rather the matter of winning the grand prize—the auto—or one of the valuable district first prizes and each candidate is bending every effort to secure and deposit just a few, or rather a whole lot more votes, than any other candidate. There is such a very great difference in the value of the prizes and the difference in the winning votes is likely to be so small that the contestants with ambition and determination who have made such excellent records so far are not going to be beaten in the final onslaught if they can prevent it.

Voting is Very Heavy.

The voting yesterday was, by far, the heaviest of any day since the contest started, and the rapid pace that has been set for the daily increase in the vote standing bids fair to continue right up to the last minute of the enterprise. The reserve votes held by the candidates, or at least a part of them, as well as the subscriptions received daily are being deposited for publication so that the vote standing of all candidates will be extremely high by Saturday when the ballot box with its precious burden will go to the official judges for the final count.

The wise contestants are not allowing their published standing to fall too far behind the positions held by the leaders and in fact the various contendors, in many cases are striving so hard for daily leadership in the race that the relative standing is changing almost daily. The voluntary subscriptions that come in daily, for the various contestants are being deposited for publication as they come in, and in this way the increase of the votes in many cases is greater than even the contestants are fully aware. The number of voluntary subscriptions turned in daily will greatly increase right up to Saturday when it will be especially heavy.

Last Coupon Appears Today.

The last five-vote coupons that will be printed in The Progress contest appear in the paper today and all of these coupons that are to count for the prizes positively must be turned in at The Progress office not later than 10 o'clock tomorrow (Thursday) evening. All of the coupons will be counted when the time limit expires on them tomorrow evening and the final vote from them will be added to the standing of the contestants in Friday's issue of The Progress. After that time only the subscription ballots will count.

Many of the contestants have favorably commented on the discontinuance of the coupons so that they may devote their time entirely to the more important subscription getting during the last days of the voting. Dropping the coupons and calling them all in before the final counting of the votes will also simplify the work of the official judges at the close of the contest.

WOODLAND GIRLS ENTERTAIN AT MINERAL SPRINGS PARK

Monday evening a number of young people gave a moonlight picnic at Mineral Springs park in honor of Earl Duke who will leave for his home in Rockwood Pa. Miss Mabel Albert played several selections on the piano. Music was also furnished by the Victrola to which several delightful folk dances were danced. After delicious refreshments were served the young folks returned to their homes after expressing having enjoyed a delightful time. The out of town guests were: Miss Lucy Bainey, of West Virginia, Miss Violet Williams, Miss Elizabeth Freeze, both of Altoona, Miss Kathleen Frampton, of Winburne, Miss Rose Bainey, Ruth Bainey, of Lock Haven, Miss Reba Duke of Rockwood and Earl Duke, of Rockwood and Lawrence Nowlan, of Tyrone.

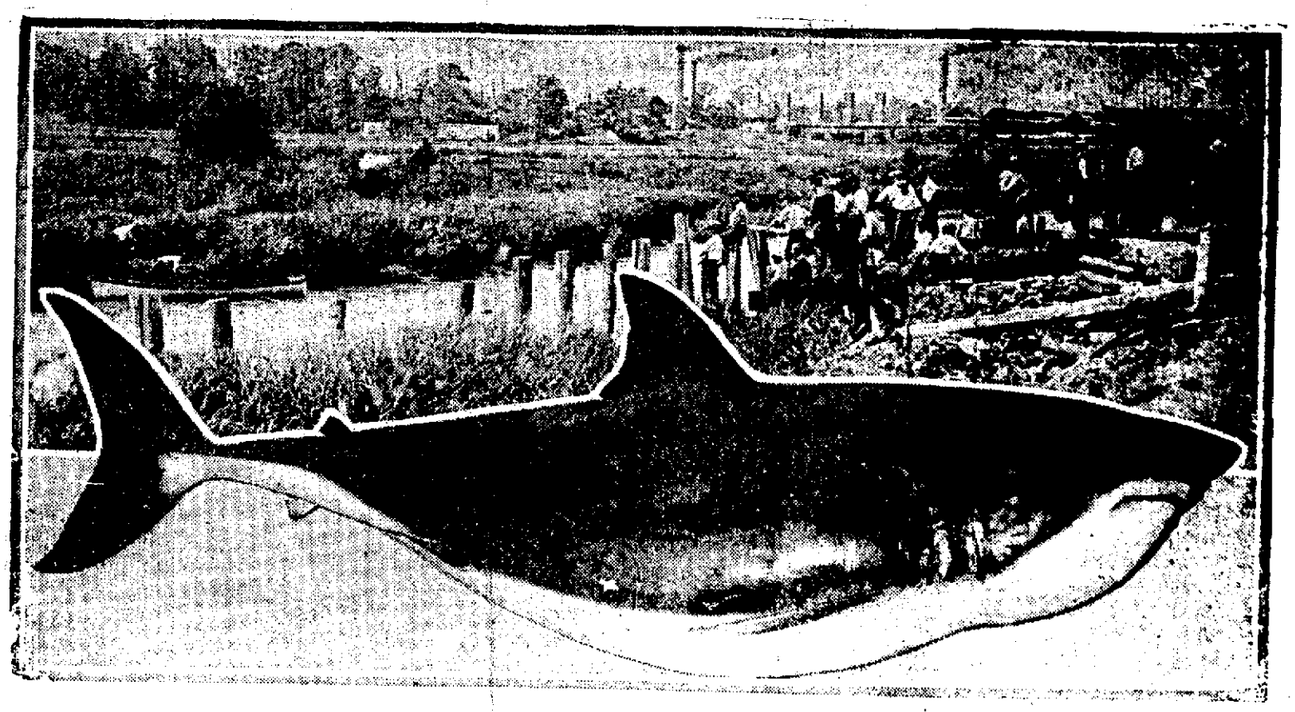
Where Man-Eating Shark Killed Man And Boy



At the spot where the boat is shown in this photograph a man-eating shark killed a man and a boy. It is Matawan Creek, a small stream or army of New York bay. For more than a hundred years boys have bathed in the stream at high tide, and have never feared sharks.

The lower picture shows a stuffed great white shark in the Brooklyn Institute of Arts and Sciences. He is twelve feet long. Many photographs of harmless sharks have been published, but this is one of the two species, according to Robert Cushman Murphy, an authority on sharks, which is dangerous.

The chief interest in the raid of sharks on the Atlantic coast bathing resorts is the fact that it may mean the destruction of hundreds of millions in bathing pavilions and hotels. Unless means are found to protect bathers the hundreds of thousands who support this enormous industry will leave the coast for inland resorts. The advent of the sharks is a very serious business matter.

DEUTSCHLAND WILL NOT GO AWAY TODAY

Readjustment and Repairs To Pipes Will Detain Her Until Possibly Sunday

DAMAGED ON THE WAY HERE

Baltimore, July 19.—(By United Press)—Due to a delay in readjustment and repairs to pipes the German subsea freighter Deutschland still lies in the muddy water of the Potasco river here. Her get away it now appears is likely not to be made until Friday and possibly not before Sunday. Her wireless is slated to be sealed today under the neutrality provision required in such cases after a ten days stay. The pipes were damaged in her voyage here from Germany, and it was stated that these could probably be fixed by Friday. One story goes that the vessel must await the coming of her sister craft the Bremen, in order to ascertain the disposition of the allied warships on the path between this port and Germany. The Bremen it is stated will dock not later than Sunday. Where she is now officials would not say early today.

New York, July 19.—(By United Press)—In a publication of morning newspapers in New York today is a repor that a submarine, sister ship to the Deutschland was to dock at Bridgeprt, Conn. and created a furore at the Connecticut seaport today, but not a soul can be found there who knew anything about the matter. The collector of the port, James L. McGovern sated that he was without information. Employees along the water front had been scanning the water since dawn but without seeing a periscope.

A report is being circulated that the submarine is actually in the Bridgeport Harbor. The officer and collector of that port knows nothing outside of the report published here. Some of the Lake submarine are being tested in the harbor, which may be ressponsible for the last report.

Authorities who had stated that the Deutschland's wireless must be sealed dtoday, investigated the service and found that the law does not require such action until Monday.

HARRISBURG STRIKE QUIET.

Harrisburg, July 19.—(By United Press.)—No change took place in the trolly strike situation here today. The strikers kept away from the crowds and groups of sympathizers were orderly.

SOMETHING NEW IN AMUSEMENT LINE AT CHAUTAUQUA

Happiness, A Morality Play Is The Offering Tuesday, August First

Extra Attraction is Strollers Quartet With Impersonations and Bell Ringing.

Something new in the amusement line is offered to Clearfielders on Tuesday evening, August 1, at the Chautauqua. A departure from the regular line of entertainment that will be welcomed by all who are looking for something to amuse. Happiness, a Chautauqua morality play, is the name given to the most recent stage stunt. The players instead of bearing the regular titles of humanity take the part of Happiness, Dreams, Disappointment, Money, Strength, Pride, Shame, Etc. All these elements and characterizations of human nature are portrayed in a most forceful manner. The author of the play is Allen Davis and the cast is composed entirely of college men and women of high talent.

An added attraction for this day day will be the Strollers Quartet. The usual interpretation of a quartet is four singers, one of whom has a high lyric tenor voice and one who has a deep bass voice who always sings "Rocked in the Cradle of the Deep." Such an interpretation can not be put on the Strollers Quartet. Their program is made up of singing impersonation, instrumental music and bell ringing.

CROPS HELPING GERMANY

Berlin, July 19.—(By United Press) The food situation in both Germany and Austria-Hungary has showed a considerable improvement. The harvest has begun in Galicia and the first reports indicate the crops are good. An Austrian-Hungarian commission empowered to make an agriculture agreement being made are most favorable. It is the understanding that it would be of great aid in the relief of shortage of food in Germany, since the dual monarchy posses more food than the German empire.

EMERGENCY BILL PASSED

Washington, July 18.—(By United Press)—An emergency appropriation of $135,000 was voted today by the house for the public health service in its fight against the infantile paralysis in New York, and to stop spread to other states.

LOST—A package of collecting cards; color blue and No. 6. If found return to Progress office and receive reward.

SOMME BATTLE STILL RAGING AT LONGUEVAL

Attacks and Counter Attacks Are The Order of The Day in Attempt to Recapture

GERMANS GAIN FOOTING

London, July 19. —(By United Press)—German troops obtained a footing in the outskirts of the village of Longueval and recaptured part of Delville Woods in a heavy counter attack against the British armies north of the Somme, General Haig reported this afternoon.

The German attacked with large after dusk last night delivering their most powerful blows against Longueval village, which occupies an important strategic position at the intersection of two highways. They succeed in penetrating the northern edge of the village and the battle continued throughout the night with the greatest violence. The Germans brought up fresh troops attacking repeatedly The British counter attack was successful at several points and savage fights occurred on the outskirts of Longueval. General Haig reported that the struggle for Longueval and the Delville woods continues and is "still violent."

BUTLER—HIPPLE

Allen Butler and Miss Ruth Hipple, both well known young people of Winburne, slipped off quietly from their friends and were married in the Presbyterian manse, by Dr. E. C. Reeve, today at 2 p. m. Mr. Butler is a valued employee of Robert Sommerville of Winburne. The young couple will make their future home in Winburne, after a short wedding trip. Congratulations and best wishes.

FRENCH ADVANCE

Paris, July 19.—(By United Press) —French troops made further progress against the German lines northeast of Verdun in fierce fighting last night, and advanced in the direction of the Santerfine chapel at the intersection of the Fleury-Vaux road, it was officially announced today. The war office reported no important fighting on the Somme front.

FOR RENT—A store room of moderate size in a very excellent location in the center of Clearfield. Desirable for grocery or other business, room in the rear for ice cream parlor. Owner will sell stock to responsible party. Also in the same building there are rooms furnished or unfurnished for housekeeping Address Z, the Progress office. J-17-1mo.

GENERALS SAY MEN SATISFIED.

Washington, July 19.—(By United Press.)—The militia have nothing to kick about, is the word of Major Generals Wood, Barry and Bell, commanders of the eastern, central and western departments respectively of the United States army. Other reports from the War Department say that it "regards the handling and the movement of the troops to the border as excellent in every respect." The three department commanders denied the reports that they had poor accommodations on trains carrying them to the border.

MORE FLOOD VICTIMS.

Asheville, N. C., July 19.—(By United Pres)—As the telegraphic and telephone communications with the mountain districts are slowly being restored today, the list of victims of yesterday's storm figures have increased. The rivers are falling and conditions in the storm stricken region is gradually returning to normal. The Southern Railway trains stalled since Sunday, are being heard from and all passengers reported to be safe. Automobiles are bringing them to the cities. The latest reports say that four persons were lost at Brezard and at Hickorynut Gap Reports from the Bat Cove section state that eight persons were drowned there an dtwo more at Volga This brings the death list in this section of the country up to thirty-five The damage estimated at fifteen million was chiefly to railroads and industrial plants.

RUSSIANS CROSS CARPATHIANS FIRST TIME IN YEAR

London, July 19—(By United Press —Russian forces have crossed the Carpathian mountains for the first time since their defeat by the Germans a year ago, and have entered Hungary after a day of searching, the Petrograd correspondent of the Evening Star reported today. The swift Russian advance into Hungary threatens the positions of the Austro-Hungarian lines northeast of the mountains, the correspondent added.

HOT DAY FOR POLICE IN PHILADELPHIA

Philadelphia July 19.—(By United Press)— Administrative government that were three days ago centered upon the tenderloin district, are today giving he police department sweeping charges, many resulting in dismissal and affecting virtually every member of the department in the red light district. Mayor Smih today declared that the raid of last Sunday revealed horrors in this district.

PA. TROOPERS HAVE MEASLES

El Paso, July 19.—(By United Press)— Measles has broken out in the First Pennsylvania cavalry camp, and also a number of other camps. The disease however, is very mild, and it is thought will not be serious.

FAIR BOOSTERS VISIT FARMS UP THE RIVER

Get Encouragement at all Stops --Farmer Gives Prize For Stock Judging Contest

TELLS US WHAT THEY FIND

T. L. Wall, representative of the County Fair Committee, assisted A. D. Kearney, County Farm Agent and Dr. H. H. Hevner, who is in charge of the agricultural extension work of State College made a trip up the river yesterday interviewing prominent farmers on the Clearfield Fair. That they met with encouragement everywhere is stated very mildly. Their principal objective was dairy farms but they visited all the territory they could in the short day. Their first visit was the Callahan Brothers farm. At this place the farm agent and Dr. Hevner found their first opportunity to perform their duties. Some mules had overtaken the cattle and after discussing the case, Dr. Hevner and Mr. Kearney volunteered to arrange a special feed for them. At every farm visited these two experts found opportunity to give advice and helpful valuable hints and information. At Old Schnarrs farm, now owned by C. Hoyt was visited and Mr. Hoyt found to be interested in the fair. Peter Gearhart was not at home but he is well known as a booster for fairs and all other progressive agricultural ideas.

Among the exhibits at the fair will be found a nice lot of hogs from the farm of Owl L. Moore on Chestnut Ridge and some fine Swiss cattle. Mr. Morris will specialty of Plymouth Rock and horn chickens and will no doubt have some of them. Moses Shirey will exhibit a century old [illegible]. The C. E. Patton farm, managed by Mr. Muma will exhibit Guernsey calves and a pair of bloated pigs. Reed Bloom's farm the committee was given assurance that the Bloom family would exhibit a number of relics which comprise a valuable and unique collection. The J. A. Farm farm will exhibit fine cattle and a full blooded Guernsey bull.

During the trip Mr. Kearney called up the stock judging contest with the boys and girls of the farms and it is assured that there will be a number of contestants. Mr. Henry, one of the fair boosters, has offered a fine blooded pig as a prize in the contest.

The committee visited Jonas Spackman, the pioneer granger, and despite his advanced age, found him busily engaged with his harvest. So busy in fact that he could not come in from the field.

Mr. Kearney and Dr. Hevner were much impressed with the many things they found on their trip. On the farm of L. T. Way an interesting improvement was the round dairy barn built on the order of a modern five round house. The new type of barn is proving satisfactory in every way. J. A. Frank had an almost complete equipment from barn to chicken house to show them. At the James Mitchell farm where they found ninety acres of hay, and sixty acres of grain they pronounced ideal and said there was none better in Center County. The Mitchell farm has been in the same family for almost ninety years. The house was built of stone in 1840. They have already harvested a crop of alfalfa twenty-four inches high and the second crop is now eighteen inches high. From the crest of a hill the committee were able to see into eighteen townships. Other farms visited were those of Dorsey Bailey, whose wife is a prominent grange and will be one of the officers in charge of the food exhibit at the fair, and others that space will not permit us to name.

At nearly every farm visited the labor question, both as to field help and house work was found to be quite, but the farmers will not allow this to keep them away from the fair.

At Curwensville the committee found several enthusiastic boosters among whom were Dorsey Gates who in addition to being a business man is skilled in farming.

Entered at Post Office at Clearfield, Pa., as second class matter.

WEDNESDAY EVENING, JULY 19, 1916.

Villa dies again. This time the Pittsburgh papers, the Franklin Evening News, The Clearfield Progress and others papers all over the country said it. The United Press say they got the information from high military authority which goes to show that our army has a most humane way of killing.

EDUCATION THROUGH AMUSEMENT.

Long ago educators come to realize that instruction must be given in delectable form. The bitterest pill can be taken when sugar-coated. Colleges and universities have thrown athletics and a social life into their curriculum in order that the pill of study may be more pleasing to the youth. Popular amusements today can be and are being made the vehicle to carry life's lessons to the multitude. Educational pictures at the movies are becoming more popular every day. The Opera House is to be congratulated on securing the Better Baby pictures which they will show every Thursday evening. This series of pictures is edited by the Women's Home Companion which is all the recommendation they need.

GO SLOW JOHN B.

The boycotting of American firms by Great Britain should not be tolerated for one moment. To strangle our commerce simply because a few German and German-Americans are interested in firms on this side of the water is the heighth of foolishness on the part of Great Britain. Outrages committed by Germany on the integrity and commerce of the United States was the means of a tremendous tide of public sentiment against her. The United States will just as quickly resent any undue interference on the part of Great Britain. John Bull should remember that while our sympathies may be with Belgium and other provinces we are neutral and will not be the cats paw of British commercialism.

IF THE MILITIA VOTED.

Some of the German newspapers are wondering what would happen to the Fatherland if the troops in the field were allowed to come home and vote. Since Germans won't be given the needed truce by the Allies to allow this interesting experiment the conjectures are naturally academic. If the same issue were applied here there can be no question how the militia would vote if it came home from Mexico, especially if the vote were cast just now when we are at the height of the fatuous hurrying of raw recruits to the front in order to witness the withdrawal of the regulars from the sections where it was supposed danger menaced to such a degree that only the presence of the National Guard on the spot could save the situation. It is apparent in the comment on this phase of things and also on the Hay appointment that the Democratic leaders are assuming a cheerfulness they do not feel. Their whistling is of the graveyard variety, since as the facts as to the rewarding of Congressman Hay for his dragooning incompetence as a military expert and the farce of the mobilization come out the leaders do not like to think what would happen if the militia came home to vote now. Their hope lies in short memories and hurrah for the flag.—Public Ledger.

Censor For Mexican War Operations.

Major Douglas MacArthur

Major Douglas MacArthur of the general staff of the army has been designated by Secretary Baker as official censor during Mexican operations. The information, whether of operations in Mexico or along the border or of the mobilization and musterings in of National Guard, will pass through Major MacArthur's hands. He will decide what portions of the information in his possession are to be given out, but will make no effort to control the manner in which the information is used.

This Is What C. E. Hughes, III, Thinks of It.

CHARLES EVANS HUGHES III

Charles Evans Hughes III. is tickled to death over the fact that the first Hughes who is his grandfather, has been nominated for the presidency of the United States. He doesn't know what it is all about but he likes it as far as it has gone, according to this photograph taken the other day.

SURGGERY RESTORES THE MUTILATED FACES OF BRITISH SOLDIERS

Wonderful Skill of American Surgeons Commands the Admiration of All Europe.

London, July 20.—(By Mail)—That horror of the soldier, a shattered face, is being abated in the British army by a set of Chicago surgeons in their field hospital near the British front today. Their success is largely due to expert dental surgery.

Col. Dr. J. M. Neff, of Chicago, head of this unit of 32 surgeons; Col. Dr. George Davis, of Chicago; Maj. Dr. Sidney McCall, formerly of Chicago but now of Lindon, and Maj. Dr. Charles Magby, eye and ear surgeon, of Chicago are daily performing operations on wounded men hitherto unheard of in medical science.

These American surgeons have proved that Napoleon's adage that an army travels on its stomach is old-fashioned. An army travels on its teeth. Without good molars the best stomachs go to pieces. Twenty months of war demonstrated this. American medical men established the fact that caring for the soldier's teeth is the supremely important thing in caring for his health.

To this American surgery in the British lines soldiers come suffering from disordered digestion, sore throats, influenza, rheumatism, shattered nerves. Most of them are men who have gotten no relief from medicine. Usually it is discovered that an injured tooth is the poison center that is disrupting the man's physical organization and he is quickly put on his feet again.

It is in jaw surgery that the most astonishing results have been attained. When we read or hear of soldiers so horribly disfigured that other humans do not care to look upon them, we do not care to diagnose the details. But these Chicago surgeons have discovered that all these wounds occur to the lower part of the face. A wound on the upper part of the head usually causes death, but wounds of the jaw do nothing but turn men's faces into terrible caricatures.

Bullets play strange tricks with jaw bones. They enter a cheek, making a small wound, shatter the jaw bone and pass out through a tiny wound on the other side. The shattered bone changes the structural outward appearance of the face, often with horrible effect. In other wars the wounds were drawn up and the bones permitted to knit, if they would.

In this war, when part of a jaw bone has been lost, several surgeons carry the patient into the amphitheater. A piece of his shin bone is removed by the bone surgeons. The dental surgeon takes this piece, which has been cut to shape and size desired, and puts it in place in the soldier's jaw.

Photograps in Chicago surgeons' hospital show that men who came to the surgeons with faces so horrible to contemplate in every day life have departed with their features normal except for a scar or two that looks as though it might have been caused by a razor slip. These marvelous operations are every day events now.

DRINK A GLASS OF REAL HOT WATER BEFORE BREAKFAST.

Says we will both look and feel clean, sweet and fresh and avoid illness.

Sanitatry science has of late made rapid strides with results that are of untold blessing to humanity. The latest application of its untiring research is the recommendation that it is as necessary to attend to internal sanitation of the drainage system of the human body as it is to the drains of the house.

Those of us who are accustomed to feel dull and heavy when we arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnan matter.

Everyone, whether ailing, sick or well, should, each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of ho water and limestone phosphate on an empty stomach is wonderfully ingiverating. It cleans out all thes our fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the phosphated hot water is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach tro uble, rheumatic stiffness; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

PRESBYTERIAN AND BAPTIST DAY AT LAKEMONT PARK

Tomorrow, July 20th, the annual reunions of the Presbyterian and the Baptist denominations will be held in Lakemont park, near Altoona. It had been tentatively announced that a special train would run from Curwensville direct to the park. For some reason this has been called off, and those attending from this section will leave on the morning passenger at 8:29 and can return either on the train arriving at Clearfield at 5:55 or 10:45. The fare to Altoona and return will be $2.20.

A CLEARFIELD WOMAN'S EXPERIENCE

Results Tell the Tale

Can you doubt the evidence of this Clearfield citizen?

You can verify Clearfield endorsement.

Read this:

Mrs. James R. Ogden Smith and Weaver street., Clearfield, says: "My kidneys were disordered and I felt all week and worn out. The action of my kidneys was irregular and often too frequent. I had read Doan's Kidney Pills highly spoken of, so I got some at A. M. Thacher's Drug store. Two boxes gave me fine relief, regulating the action of my kidneys and giving me new strength."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Ogden had. Foster-Milburn Co., Props, Buffalo, N. Y.

ROGER A. PRYOR BEGINS 89TH YEAR.

New York, July 19.—Gen. Roger A. Pryor, noted Confederate veteran and former Justice of the Supreme Court of New York, was the recipient of many congratulations today on the occasion of his eighty-eight birthday. He is as vigorous mentally and physically as many men of scarcely more than half his years. He devotes a portion of each day to affairs of business and seldom misses a long daily walg in Central Park.

Gen. Pryor has had a long and interesting career. He was born in Virginia and educated at the State University at Charlottesville. He was admitted to the bar in 1849, and then was editor for several years of Virginia newspapers. He was twice elected to Congress, and in 1855 represented the government on a special mission to Greece. He was a member of the first Confederate States Congress. During the civil war he rose from colonel to brigadier-general.

He was captured as a spy while serving, under special direction of Gen. Lee, in cutting wires by which Grant maintained his communications. He was imprisoned in Fort Lafayette, N. Y., and saw a companion led out and hanged. He was to receive similar treatment, but President Lincoln reprieved him because, while a division commander, he had paroled 5,000 memebrs of Pope's hospital camp, and sent them to Washington instead of to Andersonville prison.

After the war Gen. Pryor came to New York, and was admitted to the bar here in 1866. He tried some celebrated cases as a lawyer. In 1876 he was a delegate to the Democratic national convention. He was a Judge of the Court of Common Pleas from 1890 to 1894 and a Justice of the Supreme Court from 1894 to 1899.

NATIONAL PARK HIGHWAY TOUR.

St. Paul, Minn., July 19.—Automobile drivers who are to take part in the sociability tour to the Yellowstone National Park were busy today tuning up their cars and completing arrangements for the start from this city tomorrow. The tour promises to be one of the most notable and enjoyable affairs of its kind ever held in the Northwest. The schedule provides for daily runs averaging about 175 miles, with night stops at Fargo, Bismarck, Dickinson, Miles City, Billings, Livingston and other cities, in each of which the tourists are to be elaborately entertained. After nine days on the road the motorists will enter the Yellowstone National Park at Gardiner on the afternoon of July 29.

CANADIAN LIFE UNDERWRITERS.

Hamilton, Ont., July 19.—An important gathering of insurance men—the tenth annual convention of the Canadian Life Insurance Underwriters' Association—met here today with about 500 members in attendance, in addition to a considerable number of prominent insurance men from various points in the United States. The business sessions will continue through the remainder of the week and will be devoted to the discussion of a wide variety of topics of interest to the insurance men. The entertainment program provides for a visit ti Niagara Falls and a banquet at the Royal Connaught Hotel.

Big Business Recognizes Publicity.

By BREEN.

In latter years the biggest enterprises in this country have recognized the value of advertising. The men in charge of their advertising campaigns are paid splendid salaries. In fact, no branch of the business receives more attention. Publicity and advertising form the keynote of success.

If big business needs advertising doesn't small business need it?

Every man in business needs advertising. If his business is a success he needs advertising to keep it so. If his business is struggling liberal advertising will build it up.

SHINOLA

Make Thrift a Household Word

Teach the children to be thrifty. Habits formed in childhood are not apt to change in after years. The key opening box of SHINOLA with more than fifty shines and a

SHINOLA HOME SET

for polishing is an outfit unequalled for economy and convenience.

BLACK—TAN—WHITE

At all dealers—Take no substitute.

SHINE WITH SHINOLA AND SAVE

BASEBALL BUNTS

Struggling along with a tail-end outfit, Jacobson, the Rochester gardener, is showing the way in International league batting.

The difference between a German submarine and the Athletics is that the submarine comes up from the bottom occasionally.

Manager Jones, of the Browns, tells us that the Red Sox will not repeat this year, but fails to state in which direction the Browns are headed.

Last in team batting and without a single pastimer on speaking terms with a .300 swat average, the Braves certainly are making a grand fight for the National league flag.

Being shifted by the Yankees from the infield to the outfield seems to have put kinks in Paddy Baumann's batting average.

Lee Fohl caught a few games for the Pirates in 1902 and for the Reds in 1903. Perhaps this accounts for the references to the Indians' pilot as a "minor league" manager.

Christy Mathewson's "fadeaway" may be less effective than of yore, but the Giants' fadeaway percentage is still on the job.

Making a home run before the king of England was an easy trick in comparison to delivering the wallop before a yard full of bugs. Ask Tom Daly. He knows.

The veteran heaver Stoney McGlynn is still in the game and is now pitching for the Manitowoc (Wis.) team. Stoney denies that Cooperstown was the birthplace of base ball. He says he invented the pastime himself, in Pennsylvania.

According to a published box score, the lineup of the New London Eastern league team contains such names as M'rhefka, R'drig'z and Wh'ck'se. Send as many answers as you like.

In Pitcher Carter the Indianapolis American Association team owns something choice in the way of flingers. Still, it should be an easy matter for Carter to handle the pill.

Among the galaxy of stars pastiming with the White Sox none is performing more brilliantly than Mr. "Happy" Felsch, formerly of Milwaukee, but now of Chicago.

Manager McGraw, of the Giants, now admits that the Robins are a dangerous flock of birds, but adds that the admission is made in the hope that it may prove a jinx to the Brooklyn speeders.

All that Ray Caldwell has to do to win is to pitch airtight ball and then bat out a victory himself. The Yanks can't hit for him.

Outfielder Jimmy Kelly, who started the season with Indianapolis and later was sold to Memphis has now been shipped to the Galveston club. As Mexico is in no mood for pastiming, Jimmy figures he has been sent the limit.

OUR DAILY BIRTHDAY PARTY

Capt. Lewis S. Morey, U. S. A., who narrowly escaped death recently while leading his troops against the Mexicans, born in New York, 41 years ago today.

Brig. Gen. John P. Wisser, who goes on the retired list of the army today on account of age, born in St. Louis, 64 years ago today.

Judge Roger A. Pryor, one of the few surviving members of the first Confederate States Congress, born in Dinwiddie County, Va., 88 years ago today.

Rt. Rev. John J. Hennessey, Catholic bishop of Wichita, born in County Cork, Ireland, 69 years ago today.

John Purroy Mitchel, mayor of the city of New York, born at Fordham, N. Y., 37 years ago today.

Dr. Charles H. Mayo, one of the heads of the celebrated Mayo surgical clinic, born at Rochester, Minn., 51 years ago today.

Prof. Edward C. Pickering, director of the Harvard Astronomical Observatory, born in Boston, 70 years ago today.

Earl Hamilton, pitcher of the St. Louis American league base ball team, born at Owego, Kansas, 24 years ago today.

Edward F. Sweeney, catcher for the Toledo American Association base ball team, born in Chicago, 28 years ago today.

NAVAL PROGRAM ADOPTED

Washington, July 18.—(By United Press)—The Senate today adopted the naval program urged by President Wilson, eight capital ships this year and sixteen in three years. The passage of the whole naval bill is near.

The Prohibition Party Holding Convention At St. Paul, Minn.

Washington, July 19.—The Prohibition convention now in session in St. Paul is the twelfth national convention held by the party for the nomination of candidates for president and vice president. Since the first convention held at Columbus, February 22, 1872, the zeal of those who attribute all the social, moral and economic distress of the world to the liquor habit has never abated. Regularly, every four years, the Prohibitionists have put a national ticket in the field, only to see it overwhelmingly defeated at election time.

The St. Paul convention is attracting far more attention from the general public than has any previous convention held by the foes of the liquor traffic. Several substantial reasons exist for the increased attention given the convention. In the first place, the liquor question is a bigger issue in this country today than ever before. Indisputable evidence of this exists on all sides, with the ever lengthening column of "dry" states furnishing proof positive of the fact.

But more important, still, from the viewpoint of the practical politician, is the announced intention of the Prohibition party leaders to make a serious bid for the presidency this year. While the announcement in itself would scarcely be sufficient to cause the leaders of the old parties to sit up and take notice, there are outward and visible signs of unusual activity on the part of the Prohibitionists that have caused no little uneasiness among the Democrats and Republicans.

A stiff dose of practical politics has been injected into the Prohibitionists this year, and it is this fact that is causing the leaders of the two older parties to keep their ears to the ground this week awaiting news of the proceedings at St. Paul. So long as the Prohibition party remained a party of theory, there was little fear that its votes would cut any important figure in election results.

Henceforth, if the plans of the leaders are carried out at St. Paul, the Prohibition party will no longer be open to the charge that it is a party of one idea. The national platform to be adopted this week will deal with many live and important issues other than the suppression of the liquor traffic, though the declarations against the "rum evil" will, of course, form the main plank of the platform. Woman suffrage, peace and preparedness, the danger of hyphenated Americanism, and a wide variety of other issues that are agitating the public at the present time will receive attention in the platform declarations. And these declarations will be framed in a manner calculated to attract many votes.

The possibility of an alliance between the Prohibitionists and the stand-pat faction of the Progressives is another source of worry for the older parties. The mere suggestion of such an alliance furnishes striking evidence of the practical turn that has been given the direction of the Prohibition party management this year. Whether or not the merger is formally consummated, it is regarded as a certainty that the Prohibitionists will make a strong bid for the support of the irreconcilable Progressives at the polls in November.

The situation as it exists today, with reference to the relations between the Prohibitionists and the two older parties, was accurately forecasted many years ago in the writings of James Bryce. Speaking of the Prohibition party and its activities as a subject of practical interest to wide awake politicians of the two great parties, Mr. Bryce wrote:

"The number of persons who are thoroughgoing Prohibitionists are pure Prohibitionists—that is to say, who are not also Republicans or Democrats—is small, far too small, even when re-enforced by a section of the "temperance men" and by discontented Republicans or Democrats who may dislike the regular candidates of their party, to give the Prohibition ticket a chance of success in any state.

"The importance of the Prohibition ticket lies in the fact that in a doubtful state it may draw away enough votes from one of the "regular" candidates to leave him in the minority. Mr. Blaine probably suffered in this way in the election of 1884, most of the votes cast for the Prohibitionist candidate having come from quondam Republicans. On the other hand, a case may be imagined in which the existence of an outlet or safety valve, such as the Prohibitionist ticket, would prevent the bolters from one party from taking the more dangerous course of voting for the candidate of the opposite party."

PHILADELPHIA NOW LARGEST SHIPBUILDING CENTER

Philadelphia, July 19.—(By United Press)—An investgation by the United Press)—An investigation by the United Press today disclosed that with present facilities and those being added under millons of dollars worth of new contracts just closed this city in less than twelve months will be the greatest and biggest shipbuilding center in the world.

There are now under construction or contracted for 76 ships with a total gross tonnage of 420,253. Millions of dollars are being poured into the shipbuilding industry along the Delaware river. Thousands of men are working long hours getting new shipyards together.

This tremendous boost is due primarily of course to the fact that the seas have been practically stripped of foreign shipping by the European war and there is an enormous demand for bottoms which will carry foreign and domestic sea trade.

All the big yards here are jammed with all the work they can do for the next three years They are refusing orders every day on this account. Among the largest of these yards is The Cramp company, New York Shipbuilding company Philadelphia Navy yard, Pusey & Joney, Harlan and Hollingsworth, Chester Shipbuilding company and Quigley & Dorp.

The Pennsylvania Shipbuilding company is completing a big new $6,000,000 yard.

The Sun Shipbuilding company, organized by New York, Philadelphia and Pittsburgh men, is completing a new yard, costing several million. A report today shows that Cramp is building 13 ships with a total gross tonnage of 81,300 the Chester company 10 ships with 48,600 tonnage, the New York company 24 ships with 126,305 tonnage, Harlan & Hollingsworth 14 ships with 85,000 tonnage, Pusey Jones 9 ships with 37,048 tonnage and the Pennsylvania company 6 ships with 42,000 tonnage.

SECOND WOMAN'S PARTY TO BE ORGANIZED TODAY

St. Poul, July 19.—(By United Press)—The women prohibitionists of the United States will organize their own national political convention here today in connection with the Natonal Prohibition convention now in session.

The women are well represented in the dry ranks but they want to express their own sentiments on the subject of liquor in a platform all their own.

The Woman's Prohibition convention as it is called, is being held under the direction of the National Prohibition federation The women will include a strong plank in their platform endorsing the Susan B. Anthony suffrage amendment to the federal constitution. Official representatives of the National Woman's party are here to take part in the proceedings. Among the well known women leaders of the convention are Mrs. John Bidwell of California, Mrs. Eugene Chafin, of Arizona, Mrs. Francis E. Beauchamp of Kentucky, the Misses Marie Brehm and Helen Hood, of Chicago and Mrs. Emerson Wold of Minnesota. This convention does not expect to name a candidate.

WIRELESS STATION PUT IN HANDS OF DEUTSCHLAND

Baltimore, July 18.—(By United Press)—The United States government today put its Tuckerto, N. J., wireless station into the hands of the Captain and managers of the submarine freighter Deutschland.

Advertise in The Progress.

Don't Crowd Your Ad.

By BREEN.

Some advertisers make the mistake of trying to crowd a page of type into a few inches.

Display your ad. Make it catchy.

If you buy a few inches in a newspaper don't try to make them carry a couple of hundred words. Newspaper readers will not wear strong glasses to read small type.

When you decide to advertise a certain article pick out its best points. Then briefly tell what they are. Emphasize in big type.

Then you'll get results.

BOSS OF WOMAN'S PARTY

MISS ANNE MARTIN

Miss Anne Martin of Nevada, is chairman of the campaign committee of the National Woman's party and she will manage her campaign in twelve suffrage states. There the men managers of the other two parties will have to take the lady into consideration and be very nice to her.

DAILY LESSON IN HISTORY

One Hundred Years Ago Today.

1816—Following the example of Argentine in proclaiming its independence, Uruguay, Paraguay and Bolivia took steps to establish independent governments.

Seventy-Five Years Ago Today.

1841—Queen Christina made formal protest against the action of the Spanish Cortes in declaring Espartero regent during the Queen's minority.

Fifty Years Ago Today.

1866—Gen. von Manteuffel succeeded Gen. Falkenstein in command of the Prussian army engaged in war with Bavaria.

Twenty-Five Years Ago Today.

1891—Riots occurred at Briceville, Tenn., as a result of an attempt to employ convict labor in the mines.

BLACK WOOLY DOG WILL GET A REAL WAR MEDAL SOON

London, June 25.—(By Mail)—There's a black, wolly dog somewhere out in Egypt today who's going to get a real war medal soon.

Bruno, pet of the Royal Scots Fusiliers Regiment, saved more lives in five minutes than, probably, any other hero of the war.

An official communique from Cairo today tells hows the Royal Scots beat off a surprise attack by 500 Turks at Deuidar, with heavy loss to the Sultan's soldiers.

Taking advantage of a heavy fog, the Turks were able to advance stealthily to within a few hundred yards of the British camp. Bruno, barking furiously, dashed back and forth in front of the camp until every man was on the alert. The Turks advanced out of the mist and opened fire.

Warned in time by the canine "trooper" the Royal Scots answered the enemy bullet for bullet and the latter retired, leaving many dead and wounded. Bruno was in the thick of the fight. He was quite badly wounded and is only now slowly beginning to recover. You may depend upon it, he is in a real hospital and has the best of care.

ARMY OFFICER TO RETIRE.

Washington, July 18.—Tomorrow Brig. Gen. John P. Wisser retires from active duty and goes on the retired list after an eventful career in times of war and peace. He is considered a particularly able authority on the subject of explosives and has written extensively on the tactics of coast defense and other branches of military science. Gen. Wisser was born in St. Louis and graduated from West Point in 1874. Sor some years he served as an instructor at the military academy and also at the United States Artillery School. He was acting inspector-general of the Pacific Division during and after the earthquake and fire in San Francisco. From 1906 to 1909 he was military attache at Berlin.

INFANT DISEASE AT PATTON

Patton, Cambria county, has reported one case of infantile paralysis, the patient being a five months old child of Demetrius Zortman, of that borough.

A TIP FOR AMERICAN DEALERS IN COCAINE

Paris, July 19.—(By United Press)—They have as much trouble with the cocaine traffic in Paris as they do in New York, Chicago, Cleveland, San Francisco and other American cities. The tricks resorted to by law breaking vendors of the "snow" are quite as ingenious as a shrewd American could "pull."

Today the police discovered a new one Jean Nardin, a pharmacist, hit upon the happy idea of keeping his stock of "coke" in safety deposit boxes at the Credit Lyonnaise. The police yanked him up quick and he's just been put in prison and fined $500.

Although the police had been certain for months that Mardin had been selling "snow" to victims of the habit, repeated searching of his store revealed only minor quantities of the drug. Nardin's repeated visits to the vault in the bank led to his arrest. In the safety box was found several hundred dollars worth of cocaine and Nardin's personal memoirs, which he is writing as he goes through life.

MONTANA EDITORS TRAVEL IN SPECIAL TRAIN

Livingston, Montana, July 19.—(By United Press) — The newspaper editors, of Montana, met in extraordinary convention aboard a bunch of Pullman cars here today. Their business sessions and their special train started at the same time and will keep up a fast clip around the state from now on for the next seven days.

The trip and the convention stretches from here to Hunter's Hot Springs and thence into Wyoming, where the Wyoming and Montana editors will meet in joint convention July 25th. There will be a daily program of social events aboard the special after each editor has edited his paper for the day by wire and the solemn business of the convention has been done and shut up for the day.

A big crowd of Livingstonians gathered at the train to see editors get away.

KANSAS RETAIL MERCHANTS.

Lawrence, July 19.—Kansas retail merchants, more than one hundred of them from Topeka, Wichita, Newton, Salina and other cities, gathered here today for the seventh annual convention of their state association. Two days will be devoted by the convention to the discussion of merchandising problems. In addition, there will be addresses by several merchants of national reputation.

Breaking Records for Results—that's what our little Want Ads are doing for everybody who tries them

P. A. puts new joy into the sport of smoking!

YOU may live to be 110 and never feel old enough to vote, but it's certain-sure you'll not know the joy and contentment of a friendly old jimmy pipe or a hand rolled cigarette *unless* you get on talking-terms with Prince Albert tobacco!

P. A. comes to you with a *real reason* for all the goodness and satisfaction it offers. It is made by a patented process that removes *bite and parch!* You can smoke it long and hard without a comeback! Prince Albert has always been sold without coupons or premiums. We prefer to give quality!

Prince Albert affords the keenest pipe and cigarette enjoyment! And that flavor and fragrance and coolness is as good as that sounds. P. A. *just answers the universal demand for tobacco without bite, parch or kick-back!*

Prince Albert is sold everywhere in tempy red bags, 5c; tidy red tins, 10c; handsome pound and half-pound tin humidors—and—that clever crystal-glass pound humidor with sponge-moistener top that keeps the tobacco in such splendid condition.

Introduction to Prince Albert isn't any harder than to walk into the nearest place that sells tobacco and ask for "a supply of P. A." You pay out a little change, to be sure, but it's the cheerfullest investment you ever made!

PRINCE ALBERT *the national joy smoke*

Will be at the Hotel Dimeling every Wednesday from 9 A. M. to 5 P. M.

TWO ESCAPED PRISONERS CAUGHT AT SNOW SHOE

Their Liberty From Rockview State Penitentiary Was of Short Duration

George Styers, of Mill Hall, and David Smith, of Clearfield, the two convicts who escaped from the penitentiary at Rockview Sunday night, enjoyed but a short space of liberty. News of their escape was sent in every direction by the officials of the prison and a careful watch was being kept for the men. They were captured in the Allegheny mountains near Snow Shoe, Monday afternoon by two guards from the penitentiary, after they had succeeded in getting 25 miles away. Styers was serving a sentence for larceny, having been convicted and sentenced by Judge Hall at the January term of court.

Sheriff Rathgeber was notified Monday afternoon that two men who were acting in a suspicious manner and who tallied with the description of the escaped convicts, had jumped off a milk wagon at Mill Hall and had proceeded to walk down the Bald Eagle valley railroad from that place. The sheriff and deputy went to Mill Hall at once and made a diligent search for the men but were unsuccessful. In view of the fact that the escaped convicts were captured near Snow Shoe at the same time the sheriff and deputy were searching for the supposed prisoners, it would have been of no avail had they found their men, as they were not the right ones. The escaped convicts would have had a difficult time getting through Lock Haven, inasmuch as the officers of the law were all on the watch for them.

KNEPP HAS SOME JOB

A card from Allen Owens, one of Clearfield's soldier boys to Otis Knepp authorizes Knepp to kill Owen's buck this fall if he does not get back to it. Allen is one of the hunters of this vicinity and says he will miss it this fall but is enjoying life on the border.

How the Crew of the Deutschland Felt When Landed in Baltimore.

The happiest men in the United States at the moment this photograph was taken were the members of the crew of the great German submarine, Deutschland, which anchored at Baltimore after a voyage from Bremen.

Robert Newton	Winburne.....	33,840
Miss Ethel Goss	Osceola Mills.....	26,325

Another day of the final week of The Progress popular automobile contest has gone and with the passing of each day we are being rapidly drawn near the close of the great enterprise at 10 o'clock Saturday evening. Think of it, only three more days of Clearfield's most popular and far reaching campaign that only a short time ago was measured by weeks instead of days and hours. Every week and every period has passed save the last and most important one of all and it is now but a step from the present to the final counting of the votes by the judges, on Saturday, that will determine the winners of the automobile, piano and other high class contest awards.

Who will they be? Who will be the nine winners in this great event that has grown from day to day and has now resolved into such a determined but friendly battle for supremacy? There are a number of very active and ambitious contestants in each of the two districts, who are at present standing on practically even footing for the leading prize and it now remains to be seen which of the candidates in the districts will be able to make the greatest gains, spring the biggest surprise during the three busy days that remain of the voting. All of the contestants who are really competing are now running so close that any of them may yet attain the distinction of polling the highest vote and winning the top prize—the big, fine new touring car. Time alone will tell the interesting story—a very short time now, but this time is filled with hopes, votes and possibilities for those who aspire to make the most of the extraordinary chance that is theirs.

After all it is not merely the matter of winning a prize that is facing each contestant but rather the matter of winning the grand prize—the auto—or one of the valuable district first prizes and each candidate is bending every effort to secure and deposit just a few, or rather a whole lot more votes, than any other candidate. There is such a very great difference in the value of the prizes and the difference in the winning votes is likely to be so small that the contestants with ambition and determination who have made such excellent records so far are not going to be beaten in the final onslaught if they can prevent it.

Voting is Very Heavy.

The voting yesterday was, by far, the heaviest of any day since the contest started, and the rapid pace that has been set for the daily increase in the vote standing bids fair to continue right up to the last minute of the enterprise. The reserve votes held by the candidates, or at least a part of them, as well as the subscriptions received daily are being deposited for publication so that the vote standing of all candidates will be extremely high by Saturday when the ballot box with its precious burden will go to the official judges for the final count.

The wise contestants are not allowing their published standing to fall too far behind the positions held by the leaders and in fact the various contendors, in many cases are striving so hard for daily leadership in the race that the relative standing is changing almost daily. The voluntary subscriptions that come in daily, for the various contestants are being deposited for publication as they come in, and in this way the increase of the votes in many cases is greater than even the contestants are fully aware. The number of voluntary subscriptions turned in daily will greatly increase right up to Saturday when it will be especially heavy.

Last Coupon Appears Today.

The last five-vote coupons that will be printed in The Progress contest appear in the paper today and all of these coupons that are to count for the prizes positively must be turned in at The Progress office not later than 10 o'clock tomorrow (Thursday) evening. All of the coupons will be counted when the time limit expires on them tomorrow evening and the final vote from them will be added to the standing of the contestants in Friday's issue of The Progress. After that time only the subscription ballots will count.

Many of the contestants have favorably commented on the discontinuance of the coupons so that they may devote their time entirely to the more important subscription getting during the last days of the voting. Dropping the coupons and calling them all in before the final counting of the votes will also simplify the work of the official judges at the close of the contest.

WOODLAND GIRLS ENTERTAIN AT MINERAL SPRINGS PARK

Monday evening a number of young people gave a moonlight picnic at Mineral Springs park in honor of Earl Duke who will leave for his home in Rockwood Pa. Miss Mabel Albert played several selections on the piano. Music was also furnished by the Victrola to which several delightful folk dances were danced. After delicious refreshments were served the young folks returned to their homes after expressing having enjoyed a delightful time. The out of town guests were: Miss Lucy Bainey, of West Virginia, Miss Violet Williams, Miss Elizabeth Freeze, both of Altoona, Miss Kathleen Frampton, of Winburne, Miss Rose Bainey, Ruth Bainey, of Lock Haven, Miss Reba Duke of Rockwood and Earl Duke, of Rockwood and Lawrence Nowlan, of Tyrone.

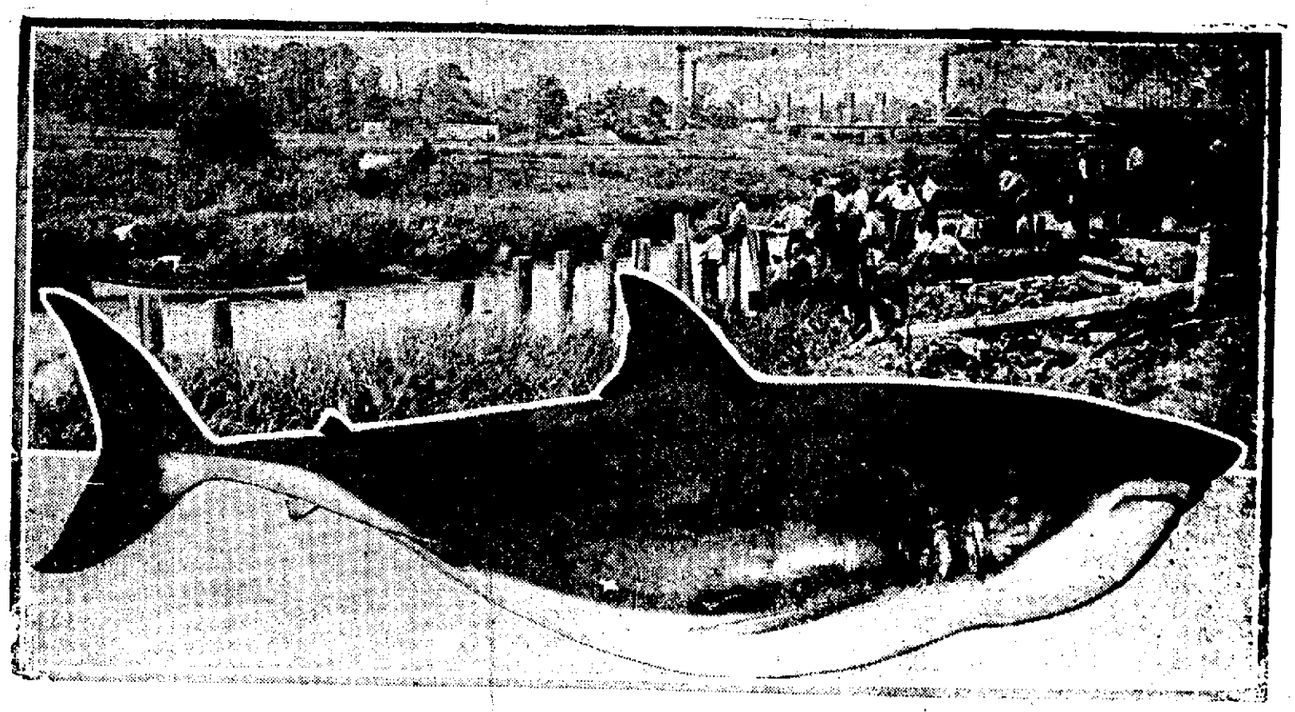
Where Man-Eating Shark Killed Man And Boy



At the spot where the boat is shown in this photograph a man-eating shark killed a man and a boy. It is Matawan Creek, a small stream or army of New York bay. For more than a hundred years boys have bathed in the stream at high tide, and have never feared sharks.

The lower picture shows a stuffed great white shark in the Brooklyn Institute of Arts and Sciences. He is twelve feet long. Many photographs of harmless sharks have been published, but this is one of the two species, according to Robert Cushman Murphy, an authority on sharks, which is dangerous.

The chief interest in the raid of sharks on the Atlantic coast bathing resorts is the fact that it may mean the destruction of hundreds of millions in bathing pavilions and hotels. Unless means are found to protect bathers the hundreds of thousands who support this enormous industry will leave the coast for inland resorts. The advent of the sharks is a very serious business matter.

DEUTSCHLAND WILL NOT GO AWAY TODAY

Readjustment and Repairs To Pipes Will Detain Her Until Possibly Sunday

DAMAGED ON THE WAY HERE

Baltimore, July 19.—(By United Press)—Due to a delay in readjustment and repairs to pipes the German subsea freighter Deutschland still lies in the muddy water of the Potasco river here. Her get away it now appears is likely not to be made until Friday and possibly not before Sunday. Her wireless is slated to be sealed today under the neutrality provision required in such cases after a ten days stay. The pipes were damaged in her voyage here from Germany, and it was stated that these could probably be fixed by Friday. One story goes that the vessel must await the coming of her sister craft the Bremen, in order to ascertain the disposition of the allied warships on the path between this port and Germany. The Bremen it is stated will dock not later than Sunday. Where she is now officials would not say early today.

New York, July 19.—(By United Press)—In a publication of morning newspapers in New York today is a repor that a submarine, sister ship to the Deutschland was to dock at Bridgeprt, Conn. and created a furore at the Connecticut seaport today, but not a soul can be found there who knew anything about the matter. The collector of the port, James L. McGovern sated that he was without information. Employees along the water front had been scanning the water since dawn but without seeing a periscope.

A report is being circulated that the submarine is actually in the Bridgeport Harbor. The officer and collector of that port knows nothing outside of the report published here. Some of the Lake submarine are being tested in the harbor, which may be ressponsible for the last report.

Authorities who had stated that the Deutschland's wireless must be sealed dtoday, investigated the service and found that the law does not require such action until Monday.

HARRISBURG STRIKE QUIET.

Harrisburg, July 19.—(By United Press.)—No change took place in the trolly strike situation here today. The strikers kept away from the crowds and groups of sympathizers were orderly.

SOMETHING NEW IN AMUSEMENT LINE AT CHAUTAUQUA

Happiness, A Morality Play Is The Offering Tuesday, August First

Extra Attraction is Strollers Quartet With Impersonations and Bell Ringing.

Something new in the amusement line is offered to Clearfielders on Tuesday evening, August 1, at the Chautauqua. A departure from the regular line of entertainment that will be welcomed by all who are looking for something to amuse. Happiness, a Chautauqua morality play, is the name given to the most recent stage stunt. The players instead of bearing the regular titles of humanity take the part of Happiness, Dreams, Disappointment, Money, Strength, Pride, Shame, Etc. All these elements and characterizations of human nature are portrayed in a most forceful manner. The author of the play is Allen Davis and the cast is composed entirely of college men and women of high talent.

An added attraction for this day day will be the Strollers Quartet. The usual interpretation of a quartet is four singers, one of whom has a high lyric tenor voice and one who has a deep bass voice who always sings "Rocked in the Cradle of the Deep." Such an interpretation can not be put on the Strollers Quartet. Their program is made up of singing impersonation, instrumental music and bell ringing.

CROPS HELPING GERMANY

Berlin, July 19.—(By United Press) The food situation in both Germany and Austria-Hungary has showed a considerable improvement. The harvest has begun in Galicia and the first reports indicate the crops are good. An Austrian-Hungarian commission empowered to make an agriculture agreement being made are most favorable. It is the understanding that it would be of great aid in the relief of shortage of food in Germany, since the dual monarchy posses more food than the German empire.

EMERGENCY BILL PASSED

Washington, July 18.—(By United Press)—An emergency appropriation of $135,000 was voted today by the house for the public health service in its fight against the infantile paralysis in New York, and to stop spread to other states.

LOST—A package of collecting cards; color blue and No. 6. If found return to Progress office and receive reward.

SOMME BATTLE STILL RAGING AT LONGUEVAL

Attacks and Counter Attacks Are The Order of The Day in Attempt to Recapture

GERMANS GAIN FOOTING

London, July 19. —(By United Press)—German troops obtained a footing in the outskirts of the village of Longueval and recaptured part of Delville Woods in a heavy counter attack against the British armies north of the Somme, General Haig reported this afternoon.

The German attacked with large after dusk last night delivering their most powerful blows against Longueval village, which occupies an important strategic position at the intersection of two highways. They succeed in penetrating the northern edge of the village and the battle continued throughout the night with the greatest violence. The Germans brought up fresh troops attacking repeatedly The British counter attack was successful at several points and savage fights occurred on the outskirts of Longueval. General Haig reported that the struggle for Longueval and the Delville woods continues and is "still violent."

BUTLER—HIPPLE

Allen Butler and Miss Ruth Hipple, both well known young people of Winburne, slipped off quietly from their friends and were married in the Presbyterian manse, by Dr. E. C. Reeve, today at 2 p. m. Mr. Butler is a valued employee of Robert Sommerville of Winburne. The young couple will make their future home in Winburne, after a short wedding trip. Congratulations and best wishes.

FRENCH ADVANCE

Paris, July 19.—(By United Press) —French troops made further progress against the German lines northeast of Verdun in fierce fighting last night, and advanced in the direction of the Santerfine chapel at the intersection of the Fleury-Vaux road, it was officially announced today. The war office reported no important fighting on the Somme front.

FOR RENT—A store room of moderate size in a very excellent location in the center of Clearfield. Desirable for grocery or other business, room in the rear for ice cream parlor. Owner will sell stock to responsible party. Also in the same building there are rooms furnished or unfurnished for housekeeping Address Z, the Progress office. J-17-1mo.

GENERALS SAY MEN SATISFIED.

Washington, July 19.—(By United Press.)—The militia have nothing to kick about, is the word of Major Generals Wood, Barry and Bell, commanders of the eastern, central and western departments respectively of the United States army. Other reports from the War Department say that it "regards the handling and the movement of the troops to the border as excellent in every respect." The three department commanders denied the reports that they had poor accommodations on trains carrying them to the border.

MORE FLOOD VICTIMS.

Asheville, N. C., July 19.—(By United Pres)—As the telegraphic and telephone communications with the mountain districts are slowly being restored today, the list of victims of yesterday's storm figures have increased. The rivers are falling and conditions in the storm stricken region is gradually returning to normal. The Southern Railway trains stalled since Sunday, are being heard from and all passengers reported to be safe. Automobiles are bringing them to the cities. The latest reports say that four persons were lost at Brezard and at Hickorynut Gap Reports from the Bat Cove section state that eight persons were drowned there an dtwo more at Volga This brings the death list in this section of the country up to thirty-five The damage estimated at fifteen million was chiefly to railroads and industrial plants.

RUSSIANS CROSS CARPATHIANS FIRST TIME IN YEAR

London, July 19—(By United Press —Russian forces have crossed the Carpathian mountains for the first time since their defeat by the Germans a year ago, and have entered Hungary after a day of searching, the Petrograd correspondent of the Evening Star reported today. The swift Russian advance into Hungary threatens the positions of the Austro-Hungarian lines northeast of the mountains, the correspondent added.

HOT DAY FOR POLICE IN PHILADELPHIA

Philadelphia July 19.—(By United Press)— Administrative government that were three days ago centered upon the tenderloin district, are today giving he police department sweeping charges, many resulting in dismissal and affecting virtually every member of the department in the red light district. Mayor Smih today declared that the raid of last Sunday revealed horrors in this district.

PA. TROOPERS HAVE MEASLES

El Paso, July 19.—(By United Press)— Measles has broken out in the First Pennsylvania cavalry camp, and also a number of other camps. The disease however, is very mild, and it is thought will not be serious.

FAIR BOOSTERS VISIT FARMS UP THE RIVER

Get Encouragement at all Stops --Farmer Gives Prize For Stock Judging Contest

TELLS US WHAT THEY FIND

T. L. Wall, representative of the County Fair Committee, assisted A. D. Kearney, County Farm Agent and Dr. H. H. Hevner, who is in charge of the agricultural extension work of State College made a trip up the river yesterday interviewing prominent farmers on the Clearfield Fair. That they met with encouragement everywhere is stated very mildly. Their principal objective was dairy farms but they visited all the territory they could in the short day. Their first visit was the Callahan Brothers farm. At this place the farm agent and Dr. Hevner found their first opportunity to perform their duties. Some mules had overtaken the cattle and after discussing the case, Dr. Hevner and Mr. Kearney volunteered to arrange a special feed for them. At every farm visited these two experts found opportunity to give advice and helpful valuable hints and information. At Old Schnarrs farm, now owned by C. Hoyt was visited and Mr. Hoyt found to be interested in the fair. Peter Gearhart was not at home but he is well known as a booster for fairs and all other progressive agricultural ideas.

Among the exhibits at the fair will be found a nice lot of hogs from the farm of Owl L. Mm on Chestnut Ridge and some Swiss cattle. Mr. Morris will specialty of Plymouth Rock and horn chickens and will no doubt have some of them. Moss Hoover will exhibit a century old [illegible]. The C. E. Patton farm, managed by Mr. Muma will exhibit Guernsey cattle, calves and a pair of blooded pigs. At Reed Bloom's farm the committee was given assurance that the Bloom family would exhibit a number of relics which comprise a valuable and unique collection. The J. A. Farm farm will exhibit fine cattle and a full blooded Guernsey bull.

During the trip Mr. Kearney called up the stock judging contest with the boys and girls of the farms and it is assured that there will be a number of contestants. Mr. Henry, one of the fair boosters, has offered a fine blooded pig as a prize in the contest.

The committee visited Jamie Spackman, the pioneer grainger, and despite his advanced age, found him busily engaged with his harvest. So busy in fact that he could not come in from the field.

Mr. Kearney and Dr. Hevner were much impressed with the many things they found on their trip. On the farm of L. T. Way an interesting improvement was the round dairy barn built on the order of a modern five round house. The new type of barn is proving satisfactory in every way. J. A. Frank had an almost complete equipment from barn to chicken house to show them. At the James Mitchell farm where they found ninety acres of hay, and sixty acres of grain they pronounced ideal and said there was none better in Center County. The Mitchell farm has been in the same family for almost ninety years. The house was built of stone in 1840. They have already harvested a crop of alfalfa twenty-four inches high and the second crop is now eighteen inches high. From the crest of a hill the committee were able to see into eighteen townships. Other farms visited were those of Dorsey Bailey, whose wife is a prominent grainger and will be one of the officers in charge of the food exhibit at the fair, and others that space will not permit us to name.

At nearly every farm visited the labor question, both as to field help and house work was found to be quite but the farmers will not allow this to keep them away from the fair.

At Curwensville the committee found several enthusiastic boosters among whom were Dorsey Bailey who in addition to being a business man is skilled in farming.

One Year ..... $3.00 Three Months ..... .75
Six Months ..... $1.50 One Month ..... .25

Entered at Post Office at Clearfield, Pa., as second class matter.

WEDNESDAY EVENING, JULY 19, 1916.

Villa dies again. This time the Pittsburgh papers, the Franklin Evening News, The Clearfield Progress and others papers all over the country said it. The United Press say they got the information from high military authority which goes to show that our army has a most humane way of killing.

EDUCATION THROUGH AMUSEMENT.

Long ago educators come to realize that instruction must be given in delectable form. The bitterest pill can be taken when sugar-coated. Colleges and universities have thrown athletics and a social life into their curriculum in order that the pill of study may be more pleasing to the youth. Popular amusements today can be and are being made the vehicle to carry life's lessons to the multitude. Educational pictures at the movies are becoming more popular every day. The Opera House is to be congratulated on securing the Better Baby pictures which they will show every Thursday evening. This series of pictures is edited by the Women's Home Companion which is all the recommendation they need.

GO SLOW JOHN B.

The boycotting of American firms by Great Britain should not be tolerated for one moment. To strangle our commerce simply because a few German and German-Americans are interested in firms on this side of the water is the heighth of foolishness on the part of Great Britain. Outrages committed by Germany on the integrity and commerce of the United States was the means of a tremendous tide of public sentiment against her. The United States will just as quickly resent any undue interference on the part of Great Britain. John Bull should remember that while our sympathies may be with Belgium and other provinces we are neutral and will not be the cats paw of British commercialism.

IF THE MILITIA VOTED.

Some of the German newspapers are wondering what would happen to the Fatherland if the troops in the field were allowed to come home and vote. Since Germans won't be given the needed truce by the Allies to allow this interesting experiment the conjectures are naturally academic. If the same issue were applied here there can be no question how the militia would vote if it came home from Mexico, especially if the vote were cast just now when we are at the height of the fatuous hurrying of raw recruits to the front in order to witness the withdrawal of the regulars from the sections where it was supposed danger menaced to such a degree that only the presence of the National Guard on the spot could save the situation. It is apparent in the comment on this phase of things and also on the Hay appointment that the Democratic leaders are assuming a cheerfulness they do not feel. Their whistling is of the graveyard variety, since as the facts as to the rewarding of Congressman Hay for his dragooning incompetence as a military expert and the farce of the mobilization come out the leaders do not like to think what would happen if the militia came home to vote now. Their hope lies in short memories and hurrah for the flag.—Public Ledger.

Censor For Mexican War Operations.

Major Douglas MacArthur

Major Douglas MacArthur of the general staff of the army has been designated by Secretary Baker as official censor during Mexican operations. The information, whether of operations in Mexico or along the border or of the mobilization and musterings in of National Guard, will pass through Major MacArthur's hands. He will decide what portions of the information in his possession are to be given out, but will make no effort to control the manner in which the information is used.

This Is What C. E. Hughes, III, Thinks of It.

CHARLES EVANS HUGHES III

Charles Evans Hughes III. is tickled to death over the fact that the first Hughes who is his grandfather, has been nominated for the presidency of the United States. He doesn't know what it is all about but he likes it as far as it has gone, according to this photograph taken the other day.

SURGGERY RESTORES THE MUTILATED FACES OF BRITISH SOLDIERS

Wonderful Skill of American Surgeons Commands the Admiration of All Europe.

London, July 20.—(By Mail)—That horror of the soldier, a shattered face, is being abated in the British army by a set of Chicago surgeons in their field hospital near the British front today. Their success is largely due to expert dental surgery.

Col. Dr. J. M. Neff, of Chicago, head of this unit of 32 surgeons; Col. Dr. George Davis, of Chicago; Maj. Dr. Sidney McCall, formerly of Chicago but now of Lindon, and Maj. Dr. Charles Magby, eye and ear surgeon, of Chicago are daily performing operations on wounded men hitherto unheard of in medical science.

These American surgeons have proved that Napoleon's adage that an army travels on its stomach is old-fashioned. An army travels on its teeth. Without good molars the best stomachs go to pieces. Twenty months of war demonstrated this. American medical men established the fact that caring for the soldier's teeth is the supremely important thing in caring for his health.

To this American surgery in the British lines soldiers come suffering from disordered digestion, sore throats, influenza, rheumatism, shattered nerves. Most of them are men who have gotten no relief from medicine. Usually it is discovered that an injured tooth is the poison center that is disrupting the man's physical organization and he is quickly put on his feet again.

It is in jaw surgery that the most astonishing results have been attained. When we read or hear of soldiers so horribly disfigured that other humans do not care to look upon them, we do not care to diagnose the details. But these Chicago surgeons have discovered that all these wounds occur to the lower part of the face. A wound on the upper part of the head usually causes death, but wounds of the jaw do nothing but turn men's faces into terrible caricatures.

Bullets play strange tricks with jaw bones. They enter a cheek, making a small wound, shatter the jaw bone and pass out through a tiny wound on the other side. The shattered bone changes the structural outward appearance of the face, often with horrible effect. In other wars the wounds were drawn up and the bones permitted to knit, if they would.

In this war, when part of a jaw bone has been lost, several surgeons carry the patient into the amphitheater. A piece of his shin bone is removed by the bone surgeons. The dental surgeon takes this piece, which has been cut to shape and size desired, and puts it in place in the soldier's jaw.

Photograps in Chicago surgeons' hospital show that men who came to the surgeons with faces so horrible to contemplate in every day life have departed with their features normal except for a scar or two that looks as though it might have been caused by a razor slip. These marvelous operations are every day events now.

DRINK A GLASS OF REAL HOT WATER BEFORE BREAKFAST.

Says we will both look and feel clean, sweet and fresh and avoid illness.

Sanitatry science has of late made rapid strides with results that are of untold blessing to humanity. The latest application of its untiring research is the recommendation that it is as necessary to attend to internal sanitation of the drainage system of the human body as it is to the drains of the house.

Those of us who are accustomed to feel dull and heavy when we arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnan matter.

Everyone, whether ailing, sick or well, should, each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of ho water and limestone phosphate on an empty stomach is wonderfully ingiverating. It cleans out all thes our fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the phosphated hot water is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach tro uble, rheumatic stiffness; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

PRESBYTERIAN AND BAPTIST DAY AT LAKEMONT PARK

Tomorrow, July 20th, the annual reunions of the Presbyterian and the Baptist denominations will be held in Lakemont park, near Altoona. It had been tentatively announced that a special train would run from Curwensville direct to the park. For some reason this has been called off, and those attending from this section will leave on the morning passenger at 8:29 and can return either on the train arriving at Clearfield at 5:55 or 10:45. The fare to Altoona and return will be $2.20.

A CLEARFIELD WOMAN'S EXPERIENCE

Results Tell the Tale

Can you doubt the evidence of this Clearfield citizen?

You can verify Clearfield endorsement.

Read this:

Mrs. James R. Ogden Smith and Weaver street., Clearfield, says: "My kidneys were disordered and I felt all week and worn out. The action of my kidneys was irregular and often too frequent. I had read Doan's Kidney Pills highly spoken of, so I got some at A. M. Thacher's Drug store. Two boxes gave me fine relief, regulating the action of my kidneys and giving me new strength."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Ogden had. Foster-Milburn Co., Props, Buffalo, N. Y.

ROGER A. PRYOR BEGINS 89TH YEAR.

New York, July 19.—Gen. Roger A. Pryor, noted Confederate veteran and former Justice of the Supreme Court of New York, was the recipient of many congratulations today on the occasion of his eighty-eight birthday. He is as vigorous mentally and physically as many men of scarcely more than half his years. He devotes a portion of each day to affairs of business and seldom misses a long daily walg in Central Park.

Gen. Pryor has had a long and interesting career. He was born in Virginia and educated at the State University at Charlottesville. He was admitted to the bar in 1849, and then was editor for several years of Virginia newspapers. He was twice elected to Congress, and in 1855 represented the government on a special mission to Greece. He was a member of the first Confederate States Congress. During the civil war he rose from colonel to brigadier-general.

He was captured as a spy while serving, under special direction of Gen. Lee, in cutting wires by which Grant maintained his communications. He was imprisoned in Fort Lafayette, N. Y., and saw a companion led out and hanged. He was to receive similar treatment, but President Lincoln reprieved him because, while a division commander, he had paroled 5,000 memebrs of Pope's hospital camp, and sent them to Washington instead of to Andersonville prison.

After the war Gen. Pryor came to New York, and was admitted to the bar here in 1866. He tried some celebrated cases as a lawyer. In 1876 he was a delegate to the Democratic national convention. He was a Judge of the Court of Common Pleas from 1890 to 1894 and a Justice of the Supreme Court from 1894 to 1899.

NATIONAL PARK HIGHWAY TOUR.

St. Paul, Minn., July 19.—Automobile drivers who are to take part in the sociability tour to the Yellowstone National Park were busy today tuning up their cars and completing arrangements for the start from this city tomorrow. The tour promises to be one of the most notable and enjoyable affairs of its kind ever held in the Northwest. The schedule provides for daily runs averaging about 175 miles, with night stops at Fargo, Bismarck, Dickinson, Miles City, Billings, Livingston and other cities, in each of which the tourists are to be elaborately entertained. After nine days on the road the motorists will enter the Yellowstone National Park at Gardiner on the afternoon of July 29.

CANADIAN LIFE UNDERWRITERS.

Hamilton, Ont., July 19.—An important gathering of insurance men—the tenth annual convention of the Canadian Life Insurance Underwriters' Association—met here today with about 500 members in attendance, in addition to a considerable number of prominent insurance men from various points in the United States. The business sessions will continue through the remainder of the week and will be devoted to the discussion of a wide variety of topics of interest to the insurance men. The entertainment program provides for a visit ti Niagara Falls and a banquet at the Royal Connaught Hotel.

Big Business Recognizes Publicity.

By BREEN.

In latter years the biggest enterprises in this country have recognized the value of advertising. The men in charge of their advertising campaigns are paid splendid salaries. In fact, no branch of the business receives more attention. Publicity and advertising form the keynote of success.

If big business needs advertising doesn't small business need it?

Every man in business needs advertising. If his business is a success he needs advertising to keep it so. If his business is struggling liberal advertising will build it up.

SHINOLA

Make Thrift a Household Word

Teach the children to be thrifty. Habits formed in childhood are not apt to change in after years. The key opening box of SHINOLA with more than fifty shines and a

SHINOLA HOME SET

for polishing is an outfit unequalled for economy and convenience.

BLACK—TAN—WHITE

At all dealers—Take no substitute.

SHINE WITH SHINOLA AND SAVE

BASEBALL BUNTS

Struggling along with a tail-end outfit, Jacobson, the Rochester gardener, is showing the way in International league batting.

The difference between a German submarine and the Athletics is that the submarine comes up from the bottom occasionally.

Manager Jones, of the Browns, tells us that the Red Sox will not repeat this year, but fails to state in which direction the Browns are headed.

Last in team batting and without a single pastimer on speaking terms with a .300 swat average, the Braves certainly are making a grand fight for the National league flag.

Being shifted by the Yankees from the infield to the outfield seems to have put kinks in Paddy Baumann's batting average.

Lee Fohl caught a few games for the Pirates in 1902 and for the Reds in 1903. Perhaps this accounts for the references to the Indians' pilot as a "minor league" manager.

Christy Mathewson's "fadeaway" may be less effective than of yore, but the Giants' fadeaway percentage is still on the job.

Making a home run before the king of England was an easy trick in comparison to delivering the wallop before a yard full of bugs. Ask Tom Daly. He knows.

The veteran heaver Stoney McGlynn is still in the game and is now pitching for the Manitowoc (Wis.) team. Stoney denies that Cooperstown was the birthplace of base ball. He says he invented the pastime himself, in Pennsylvania.

According to a published box score, the lineup of the New London Eastern league team contains such names as M'rhefka, R'drig'z and Wh'ck'se. Send as many answers as you like.

In Pitcher Carter the Indianapolis American Association team owns something choice in the way of flingers. Still, it should be an easy matter for Carter to handle the pill.

Among the galaxy of stars pastiming with the White Sox none is performing more brilliantly than Mr. "Happy" Felsch, formerly of Milwaukee, but now of Chicago.

Manager McGraw, of the Giants, now admits that the Robins are a dangerous flock of birds, but adds that the admission is made in the hope that it may prove a jinx to the Brooklyn speeders.

All that Ray Caldwell has to do to win is to pitch airtight ball and then bat out a victory himself. The Yanks can't hit for him.

Outfielder Jimmy Kelly, who started the season with Indianapolis and later was sold to Memphis has now been shipped to the Galveston club. As Mexico is in no mood for pastiming, Jimmy figures he has been sent the limit.

OUR DAILY BIRTHDAY PARTY

Capt. Lewis S. Morey, U. S. A., who narrowly escaped death recently while leading his troops against the Mexicans, born in New York, 41 years ago today.

Brig. Gen. John P. Wisser, who goes on the retired list of the army today on account of age, born in St. Louis, 64 years ago today.

Judge Roger A. Pryor, one of the few surviving members of the first Confederate States Congress, born in Dinwiddie County, Va., 88 years ago today.

Rt. Rev. John J. Hennessey, Catholic bishop of Wichita, born in County Cork, Ireland, 69 years ago today.

John Purroy Mitchel, mayor of the city of New York, born at Fordham, N. Y., 37 years ago today.

Dr. Charles H. Mayo, one of the heads of the celebrated Mayo surgical clinic, born at Rochester, Minn., 51 years ago today.

Prof. Edward C. Pickering, director of the Harvard Astronomical Observatory, born in Boston, 70 years ago today.

Earl Hamilton, pitcher of the St. Louis American league base ball team, born at Owego, Kansas, 24 years ago today.

Edward F. Sweeney, catcher for the Toledo American Association base ball team, born in Chicago, 28 years ago today.

NAVAL PROGRAM ADOPTED

Washington, July 18.—(By United Press)—The Senate today adopted the naval program urged by President Wilson, eight capital ships this year and sixteen in three years. The passage of the whole naval bill is near.

The Prohibition Party Holding Convention At St. Paul, Minn.

Washington, July 19.—The Prohibition convention now in session in St. Paul is the twelfth national convention held by the party for the nomination of candidates for president and vice president. Since the first convention held at Columbus, February 22, 1872, the zeal of those who attribute all the social, moral and economic distress of the world to the liquor habit has never abated. Regularly, every four years, the Prohibitionists have put a national ticket in the field, only to see it overwhelmingly defeated at election time.

The St. Paul convention is attracting far more attention from the general public than has any previous convention held by the foes of the liquor traffic. Several substantial reasons exist for the increased attention given the convention. In the first place, the liquor question is a bigger issue in this country today than ever before. Indisputable evidence of this exists on all sides, with the ever lengthening column of "dry" states furnishing proof positive of the fact.

But more important, still, from the viewpoint of the practical politician, is the announced intention of the Prohibition party leaders to make a serious bid for the presidency this year. While the announcement in itself would scarcely be sufficient to cause the leaders of the old parties to sit up and take notice, there are outward and visible signs of unusual activity on the part of the Prohibitionists that have caused no little uneasiness among the Democrats and Republicans.

A stiff dose of practical politics has been injected into the Prohibitionists this year, and it is this fact that is causing the leaders of the two older parties to keep their ears to the ground this week awaiting news of the proceedings at St. Paul. So long as the Prohibition party remained a party of theory, there was little fear that its votes would cut any important figure in election results.

Henceforth, if the plans of the leaders are carried out at St. Paul, the Prohibition party will no longer be open to the charge that it is a party of one idea. The national platform to be adopted this week will deal with many live and important issues other than the suppression of the liquor traffic, though the declarations against the "rum evil" will, of course, form the main plank of the platform. Woman suffrage, peace and preparedness, the danger of hyphenated Americanism, and a wide variety of other issues that are agitating the public at the present time will receive attention in the platform declarations. And these declarations will be framed in a manner calculated to attract many votes.

The possibility of an alliance between the Prohibitionists and the stand-pat faction of the Progressives is another source of worry for the older parties. The mere suggestion of such an alliance furnishes striking evidence of the practical turn that has been given the direction of the Prohibition party management this year. Whether or not the merger is formally consummated, it is regarded as a certainty that the Prohibitionists will make a strong bid for the support of the irreconcilable Progressives at the polls in November.

The situation as it exists today, with reference to the relations between the Prohibitionists and the two older parties, was accurately forecasted many years ago in the writings of James Bryce. Speaking of the Prohibition party and its activities as a subject of practical interest to wide awake politicians of the two great parties, Mr. Bryce wrote:

"The number of persons who are thoroughgoing Prohibitionists are pure Prohibitionists—that is to say, who are not also Republicans or Democrats—is small, far too small, even when re-enforced by a section of the "temperance men" and by discontented Republicans or Democrats who may dislike the regular candidates of their party, to give the Prohibition ticket a chance of success in any state.

"The importance of the Prohibition ticket lies in the fact that in a doubtful state it may draw away enough votes from one of the "regular" candidates to leave him in the minority. Mr. Blaine probably suffered in this way in the election of 1884, most of the votes cast for the Prohibitionist candidate having come from quondam Republicans. On the other hand, a case may be imagined in which the existence of an outlet or safety valve, such as the Prohibitionist ticket, would prevent the bolters from one party from taking the more dangerous course of voting for the candidate of the opposite party."

PHILADELPHIA NOW LARGEST SHIPBUILDING CENTER

Philadelphia, July 19.—(By United Press)—An investgation by the United Press)—An investigation by the United Press today disclosed that with present facilities and those being added under millons of dollars worth of new contracts just closed this city in less than twelve months will be the greatest and biggest shipbuilding center in the world.

There are now under construction or contracted for 76 ships with a total gross tonnage of 420,253. Millions of dollars are being poured into the shipbuilding industry along the Delaware river. Thousands of men are working long hours getting new shipyards together.

This tremendous boost is due primarily of course to the fact that the seas have been practically stripped of foreign shipping by the European war and there is an enormous demand for bottoms which will carry foreign and domestic sea trade.

All the big yards here are jammed with all the work they can do for the next three years They are refusing orders every day on this account. Among the largest of these yards is The Cramp company, New York Shipbuilding company Philadelphia Navy yard, Pusey & Joney, Harlan and Hollingsworth, Chester Shipbuilding company and Quigley & Dorp.

The Pennsylvania Shipbuilding company is completing a big new $6,000,000 yard.

The Sun Shipbuilding company, organized by New York, Philadelphia and Pittsburgh men, is completing a new yard, costing several million. A report today shows that Cramp is building 13 ships with a total gross tonnage of 81,300 the Chester company 10 ships with 48,600 tonnage, the New York company 24 ships with 126,305 tonnage, Harlan & Hollingsworth 14 ships with 85,000 tonnage, Pusey Jones 9 ships with 37,048 tonnage and the Pennsylvania company 6 ships with 42,000 tonnage.

SECOND WOMAN'S PARTY TO BE ORGANIZED TODAY

St. Poul, July 19.—(By United Press)—The women prohibitionists of the United States will organize their own national political convention here today in connection with the Natonal Prohibition convention now in session.

The women are well represented in the dry ranks but they want to express their own sentiments on the subject of liquor in a platform all their own.

The Woman's Prohibition convention as it is called, is being held under the direction of the National Prohibition federation The women will include a strong plank in their platform endorsing the Susan B. Anthony suffrage amendment to the federal constitution. Official representatives of the National Woman's party are here to take part in the proceedings. Among the well known women leaders of the convention are Mrs. John Bidwell of California, Mrs. Eugene Chafin, of Arizona, Mrs. Francis E. Beauchamp of Kentucky, the Misses Marie Brehm and Helen Hood, of Chicago and Mrs. Emerson Wold of Minnesota. This convention does not expect to name a candidate.

WIRELESS STATION PUT IN HANDS OF DEUTSCHLAND

Baltimore, July 18.—(By United Press)—The United States government today put its Tuckerto, N. J., wireless station into the hands of the Captain and managers of the submarine freighter Deutschland.

Advertise in The Progress.

Don't Crowd Your Ad.

By BREEN.

Some advertisers make the mistake of trying to crowd a page of type into a few inches.

Display your ad. Make it catchy.

If you buy a few inches in a newspaper don't try to make them carry a couple of hundred words. Newspaper readers will not wear strong glasses to read small type.

When you decide to advertise a certain article pick out its best points. Then briefly tell what they are. Emphasize in big type.

Then you'll get results.

BOSS OF WOMAN'S PARTY

MISS ANNE MARTIN

Miss Anne Martin of Nevada, is chairman of the campaign committee of the National Woman's party and she will manage her campaign in twelve suffrage states. There the men managers of the other two parties will have to take the lady into consideration and be very nice to her.

DAILY LESSON IN HISTORY

One Hundred Years Ago Today.

1816—Following the example of Argentine in proclaiming its independence, Uruguay, Paraguay and Bolivia took steps to establish independent governments.

Seventy-Five Years Ago Today.

1841—Queen Christina made formal protest against the action of the Spanish Cortes in declaring Espartero regent during the Queen's minority.

Fifty Years Ago Today.

1866—Gen. von Manteuffel succeeded Gen. Falkenstein in command of the Prussian army engaged in war with Bavaria.

Twenty-Five Years Ago Today.

1891—Riots occurred at Briceville, Tenn., as a result of an attempt to employ convict labor in the mines.

BLACK WOOLY DOG WILL GET A REAL WAR MEDAL SOON

London, June 25.—(By Mail)—There's a black, wolly dog somewhere out in Egypt today who's going to get a real war medal soon.

Bruno, pet of the Royal Scots Fusiliers Regiment, saved more lives in five minutes than, probably, any other hero of the war.

An official communique from Cairo today tells hows the Royal Scots beat off a surprise attack by 500 Turks at Deuidar, with heavy loss to the Sultan's soldiers.

Taking advantage of a heavy fog, the Turks were able to advance stealthily to within a few hundred yards of the British camp. Bruno, barking furiously, dashed back and forth in front of the camp until every man was on the alert. The Turks advanced out of the mist and opened fire.

Warned in time by the canine "trooper" the Royal Scots answered the enemy bullet for bullet and the latter retired, leaving many dead and wounded. Bruno was in the thick of the fight. He was quite badly wounded and is only now slowly beginning to recover. You may depend upon it, he is in a real hospital and has the best of care.

ARMY OFFICER TO RETIRE.

Washington, July 18.—Tomorrow Brig. Gen. John P. Wisser retires from active duty and goes on the retired list after an eventful career in times of war and peace. He is considered a particularly able authority on the subject of explosives and has written extensively on the tactics of coast defense and other branches of military science. Gen. Wisser was born in St. Louis and graduated from West Point in 1874. Sor some years he served as an instructor at the military academy and also at the United States Artillery School. He was acting inspector-general of the Pacific Division during and after the earthquake and fire in San Francesco. From 1906 to 1909 he was military attache at Berlin.

INFANT DISEASE AT PATTON

Patton, Cambria county, has reported one case of infantile paralysis, the patient being a five months old child of Demetrius Zortman, of that borough.

A TIP FOR AMERICAN DEALERS IN COCAINE

Paris, July 19.—(By United Press)—They have as much trouble with the cocaine traffic in Paris as they do in New York, Chicago, Cleveland, San Francisco and other American cities. The tricks resorted to by law breaking vendors of the "snow" are quite as ingenious as a shrewd American could "pull."

Today the police discovered a new one Jean Nardin, a pharmacist, hit upon the happy idea of keeping his stock of "coke" in safety deposit boxes at the Credit Lyonnaise. The police yanked him up quick and he's just been put in prison and fined $500.

Although the police had been certain for months that Mardin had been selling "snow" to victims of the habit, repeated searching of his store revealed only minor quantities of the drug. Nardin's repeated visits to the vault in the bank led to his arrest. In the safety box was found several hundred dollars worth of cocaine and Nardin's personal memoirs, which he is writing as he goes through life.

MONTANA EDITORS TRAVEL IN SPECIAL TRAIN

Livingston, Montana, July 19.—(By United Press) — The newspaper editors, of Montana, met in extraordinary convention aboard a bunch of Pullman cars here today. Their business sessions and their special train started at the same time and will keep up a fast clip around the state from now on for the next seven days.

The trip and the convention stretches from here to Hunter's Hot Springs and thence into Wyoming, where the Wyoming and Montana editors will meet in joint convention July 25th. There will be a daily program of social events aboard the special after each editor has edited his paper for the day by wire and the solemn business of the convention has been done and shut up for the day.

A big crowd of Livingstonians gathered at the train to see editors get away.

KANSAS RETAIL MERCHANTS.

Lawrence, July 19.—Kansas retail merchants, more than one hundred of them from Topeka, Wichita, Newton, Salina and other cities, gathered here today for the seventh annual convention of their state association. Two days will be devoted by the convention to the discussion of merchandising problems. In addition, there will be addresses by several merchants of national reputation.

Breaking Records for Results—that's what our little Want Ads are doing for everybody who tries them

P. A. puts new joy into the sport of smoking!

YOU may live to be 110 and never feel old enough to vote, but it's certain-sure you'll not know the joy and contentment of a friendly old jimmy pipe or a hand rolled cigarette *unless* you get on talking-terms with Prince Albert tobacco!

P. A. comes to you with a *real reason* for all the goodness and satisfaction it offers. It is made by a patented process that removes *bite and parch!* You can smoke it long and hard without a comeback! Prince Albert has always been sold without coupons or premiums. We prefer to give quality!

Prince Albert affords the keenest pipe and cigarette enjoyment! And that flavor and fragrance and coolness is as good as that sounds. P. A. *just answers the universal demand for tobacco without bite, parch or kick-back!*

Prince Albert is sold everywhere in tempy red bags, 5c; tidy red tins, 10c; handsome pound and half-pound tin humidors—and that clever crystal-glass pound humidor with sponge-moistener top that keeps the tobacco in such splendid condition.

Introduction to Prince Albert isn't any harder than to walk into the nearest place that sells tobacco and ask for "a supply of P. A." You pay out a little change, to be sure, but it's the cheerfullest investment you ever made!

PRINCE ALBERT *the national joy smoke*

TWO ESCAPED PRISONERS CAUGHT AT SNOW SHOE

Their Liberty From Rockview State Penitentiary Was of Short Duration

George Styers, of Mill Hall, and David Smith, of Clearfield, the two convicts who escaped from the penitentiary at Rockview Sunday night, enjoyed but a short space of liberty. News of their escape was sent in every direction by the officials of the prison and a careful watch was being kept for the men. They were captured in the Allegheny mountains near Snow Shoe, Monday afternoon by two guards from the penitentiary, after they had succeeded in getting 25 miles away. Styers was serving a sentence for larceny, having been convicted and sentenced by Judge Hall at the January term of court.

Sheriff Rathgeber was notified Monday afternoon that two men who were acting in a suspicious manner and who tallied with the description of the escaped convicts, had jumped off a milk wagon at Mill Hall and had proceeded to walk down the Bald Eagle valley railroad from that place. The sheriff and deputy went to Mill Hall at once and made a diligent search for the men but were unsuccessful. In view of the fact that the escaped convicts were captured near Snow Shoe at the same time the sheriff and deputy were searching for the supposed prisoners, it would have been of no avail had they found their men, as they were not the right ones. The escaped convicts would have had a difficult time getting through Lock Haven, inasmuch as the officers of the law were all on the watch for them.

KNEPP HAS SOME JOB

A card from Allen Owens, one of Clearfield's soldier boys to Otis Knepp authorizes Knepp to kill Owen's buck this fall if he does not get back to it. Allen is one of the hunters of this vicinity and says he will miss it this fall but is enjoying life on the border.

How the Crew of the Deutschland Felt When Landed in Baltimore.

The happiest men in the United States at the moment this photograph was taken were the members of the crew of the great German submarine, Deutschland, which anchored at Baltimore after a voyage from Bremen.
